

The Ammonia Specialist Since 1962

Largest manufacturer in India and South Asia | Multi-plant export capability | Exports to 30+ Countries | 12 Distribution offices in the India and overseas

Anhydrous Ammonia: Combined Refilling Capacity of **3,000+ MT/month**

Ammonia Solution (Liquor Ammonia): Production capacity of **15,000+ MT/month**

NEW!

Refrigeration Grade Anhydrous Ammonia

LR / AR / Food Grade Ammonia Solution

Green & UHP Ammonia

Dedicated Safety & EPC Teams

Totally In-house Modern Fleet (with avg age of <10 years)

About Mysore Ammonia

- Started as a family enterprise in **1962**.
- Professional organization** specializing in the distribution of Anhydrous Ammonia and manufacturing of Ammonia Solution (Aqueous / Liquor Ammonia) in the Indian Ocean Region.
- Integrated Solutions** in the space of Supply, Logistics, Storage and Safety.
- Respected for our Business Values** and Ethos
- Continuous improvement** and QMS for every function.
- Mysore Ammonia's large volumes help to **drive down your costs**.
- Safely deliver a quality product at a **competitive price with timely delivery**.

“

Sustainable growth, value creation, transparency and safety, with a committed long-term focus on retaining all our partners in progress which include our clients, vendors and employees.

Safe and reliable Ammonia supply chain

12 Distribution offices in the India and overseas.

50+ Company owned and contracted Ammonia tankers

20+ in-house ammonia solution & cylinder **delivery vehicles**

10 Refilling & Manufacturing Plants Globally

30+ ISO Tanks.

Ownership of **10,000+ Cylinders & Ton Containers**

Safety Equipment and Parts for Ammonia like Leak Detectors, Hoses etc.

Hydraulic Testing of Cylinders and Tonners

Member of

Distribution of over **60,000 MT** per annum

Awarded with ISO 18000:1

Testing Labs in every plant

Nationwide supply chain

Anhydrous Ammonia Commercial Grade

Anhydrous Ammonia is a liquid when compressed and liquefied under high pressure and low temperature. The chemical formula of Ammonia is NH_3 with UN No. 1005 and CAS registry 7664-41-7.

Anhydrous Ammonia is supplied in steel cylinders/tonners of varying capacity ranging from **50 to 400 kg Cylinders, 10 to 21 MT Road Tankers & ISO Tanks.**

Dealers & Distributors for various fertilizer plants all over India in addition to import sourcing, with numerous awards being conferred by them for the highest & consistent off-take of Ammonia

Ammonia Solution (Liquor Ammonia)

Aqueous Ammonia, commonly known as Liquor Ammonia or Ammonia Solution. Ammonia Solution is an inorganic chemical used in various industries like Rubber, Pharmaceuticals among others. Chemical formula is NH_4OH with UN No. 2672 & CAS registry is 1336-21-6.

Ammonia Solution is supplied in varying Packaging capacities ranging from **30 L to 1000 L, HMHDPE Plastic and Metal containers, 6MT to 30MT Tankers and ISO Tanks.**

Our distribution network for liquor ammonia is strategically located, and firmly established in key industrial clusters with **pharmaceuticals, rubber, and other key industries** for safe and timely supply of ammonia.

Mysore Ammonia Envirotech Pvt Ltd.

Storage Installations

Pressurized Ammonia storage tanks along with unloading, transfer skids and process equipment such as vaporizers and HEX.

Manual / Automatic dilution plant

State of art automatic/manual Ammonia dilution plants up to 10 TPH and up to 29% solution.

Filling systems

Manual/ automatic ammonia filling plant into cylinders, ton containers and ISO tanks.

Engineering -basic and detailed engineering with layouts for Ammonia projects, FEED and HAZOP studies and statutory clearances.

In plant and cross-country pipeline

Design, engineering and supply of in-Plant and cross-country insulated/ non-insulated pipeline spools for cryogenic Ammonia and ammonia vapour.

Unloading skids and process

Compact packaged/ skid mounted unloading/transfer, vaporization and cracking units for handling Ammonia in plants as per ANSI K61.1 & ISO 5771 specifications under CE certification.

Supplies to 300+ Industrial Clusters

Exports to 30+ Countries

South East Asia

- Sri Lanka
- Singapore
- Malaysia
- Phillipines

Middle East

- UAE
- Oman
- Qatar
- Saudi Arabia
- Kuwait

Africa

- Kenya
- Tanzania
- Nigeria
- Cameroon
